Welcome to Cel Damage Overdrive!

CEL DAMAGE OVERDRIVE is the most popular cartoon demolition derby show on 'Toon TV. Each week, the world's toughest 'toons smash and crash their bruising, cruising vehicles onto, over, and through the Cel Damage Overdrive set. With sky-high ratings and a global audience, this ongoing whack-fest features six main cast members who constantly battle to out-race, out-smack and out-maneuver each other for personal 'toon glory and fame.

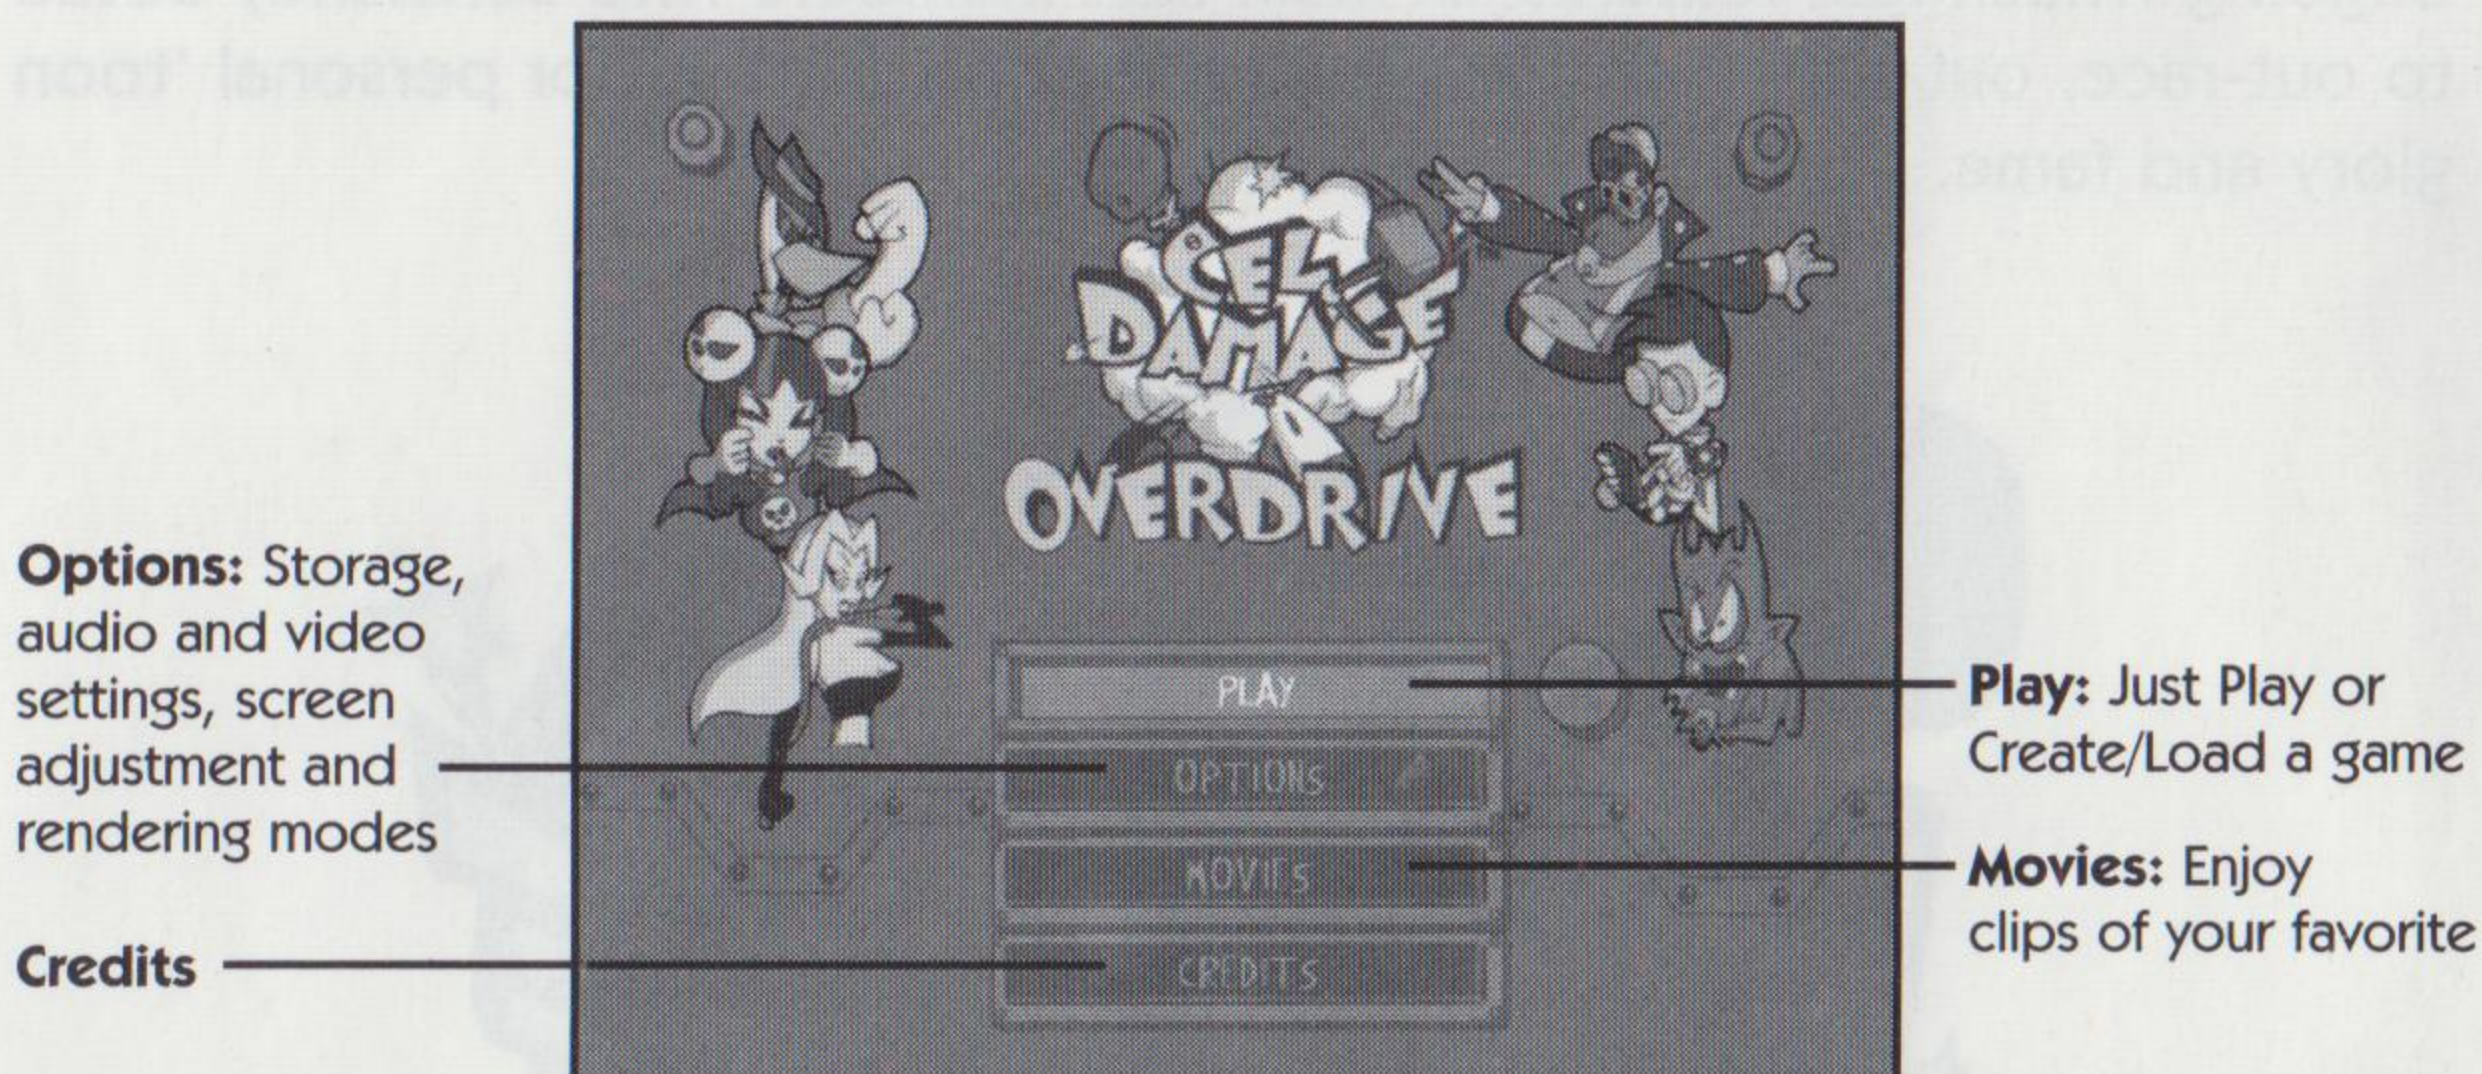

These 'toons are hard-workin' just like you and me. They go to work, pay taxes, fight with their in-laws, walk their 'toon pets and watch other 'toons on 'Toon TV. Certain 'toons are stylish and slick, others are grossly disturbed. In this world, some 'toons are politicians, some collect garbage, some trade stocks, and a select few get work as actors on cable television shows, like the always-outrageous Cel Damage Overdrive. And, because 'toons never die, it doesn't matter how many times the cast members are blasted apart during the show. They just keep coming back for more.

GAME EVENTS

Now that you're on the show, you have three different events in which you can strut your stuff. Each game event requires different strategy, but all three will require your creativity and a tenacious thirst for winning.

Smack Attack

This straightforward combat match challenges each 'toon to achieve a set number of smacks against the other cast members. The score at the end of each bout announces the Smack Attack hero. Bonus smacks are awarded when you smack enemies while powersliding or stunting

- Two levels of each event are available to start. Win levels in each event to unlock new levels for that event.

Gate Relay

Several checkpoint gates are set up within each level. Head through each gate in sequence to complete laps successfully. The first cast member to complete the set number of laps wins the race.

Flag Rally

Collect flags by driving into them. Take your flags to the Winner's Circle and convert them into points. Be the first to the set number of points to win the level.

- Cartoon flags are alive and try to avoid capture by running away.
- You can knock flags off enemy cars by damaging those cars with weapons.
- Earn extra points by bringing more than one flag at a time to the Winner's Circle:

- 1 Flag = 1 point
- 2 Flags = 3 points
- 3 Flags = 6 points
- 4 Flags = 10 points

STUNTING

Cartoon cars can leap, twist and almost fly all on their own! Here's how:

Press Left analog stick to the left or right, or press L1 button or R1 button, to perform a barrel roll to the left or right. While you barrel roll, your car will be surrounded by a protective shield for a few moments.

Press Left analog stick forwards, or press L1 button and R1 button together, to perform a forward flip. Performing a forward flip will increase your car's speed for a few seconds and earn you a Turbo Boost.

Press Left analog stick Down to perform a short hop.

Tips:

- Practice stunting and learn where to flip without tumbling out of control to dramatically improve your ability to win.
- Smack scoring is multiplied when you attack while in the middle of a stunt or a powerslide.
- Combine Turbo Boosts and flips to launch yourself up to secret areas or away from your enemies.
- While you are in the air you still have some control over your direction by steering and pitching with the Left analog stick.
- The best stunters drive with Left analog stick, R2 button, and L2 button, because it allows more air control."

Radar

Press SELECT to toggle the radar on or off. When you disable the radar, the leader's icon is displayed underneath your score

CHARACTERS

There are 10 different characters in Cel Damage Overdrive. Each character has their own car and personal powerup. Check for differences between each character by pressing and holding the Select button while at the character select screen.

Checkmarks

Each time you win a level event for the first time, you earn a checkmark for the cast member you won it with. A character's checkmark total is displayed at the bottom of the level select screen next to the character's icon. Checkmarks are also displayed next to the level icons for the level events you have already beaten with that character.

Win levels without checkmarks to unlock bonus weapons, new levels, and movies!

Record Times

Each time you place first in a round, the game will check to see if you have a new best time. The best time for a level event is also displayed in the banner at the top of the level select screen.

WEAPONS

You can check out all the different weapons in Cel Damage Overdrive by selecting the Weapons button in the Event Settings screen. Uncolored weapons are not unlocked yet. You can see a description of the selected weapon by pressing and holding the Select button down when in the Weapons menu.

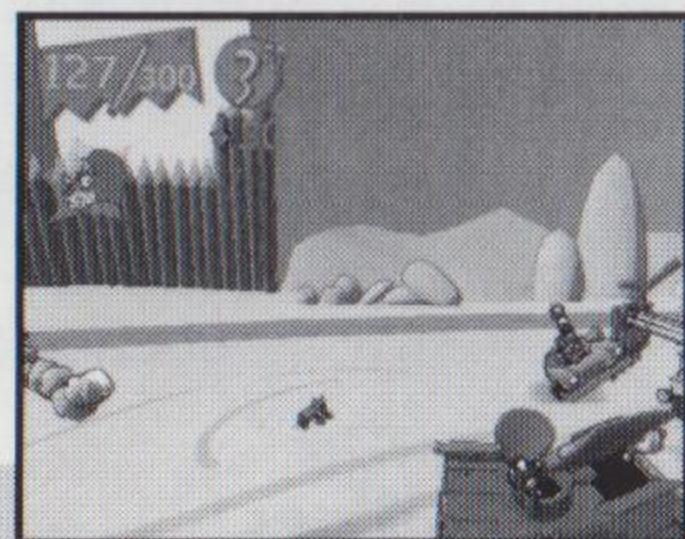

Win more checkmarks with different characters to unlock more weapons!

THEMES

Cel Damage Overdrive's four themes have been made famous by the all-or-nothing 'toon bashing that occurs during each episode. Each of these themes has three levels. You must successfully complete a level in order to move onto the next one in the theme.

Desert

Don't forget to take a minute and enjoy the lovely desert scenery. Nothin' like the glimmer of the hot sun shooting off the sharp corner of a hundred-ton weight as it plummets towards your head. Isn't this butte-infested country beautiful? And, if you prefer the dusty grit of a genuine western ghost town complete with speeding locomotives and 'toon-crushing avalanches, this is the place for you.

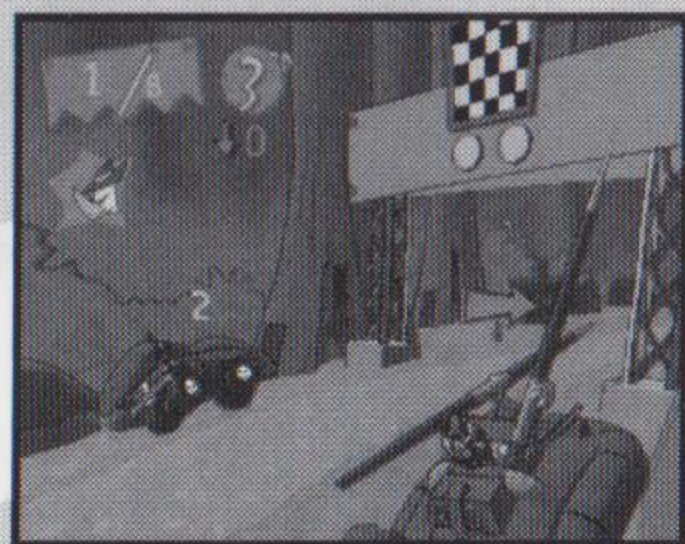

Transylvania

What scares you more, getting your Chain gun stuck in a giant spider web or racing around a dark castle in your increasingly beat-up ride as threatening 'toons aim for your tires?

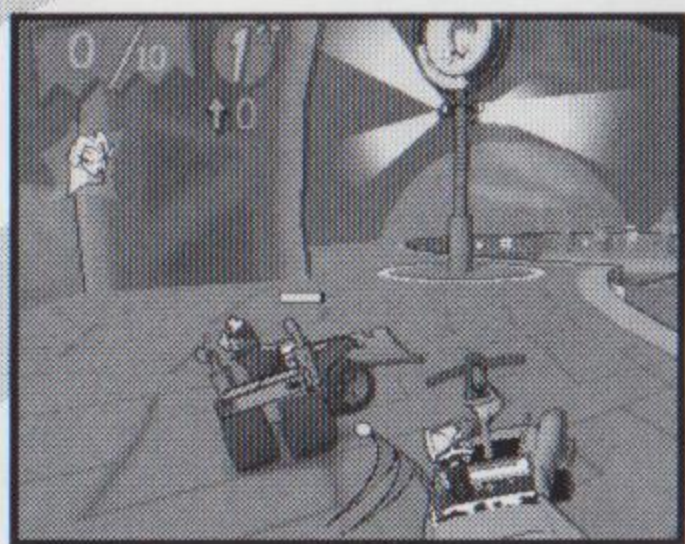

Jungle

Heed all glimpses of movement while navigating this less-than familiar jungle terrain. Amazon-like, this arboreal environment takes on a mischievous and playful tone as swinging vines, lava rivers, giant Venus flytraps, temple structures and more, become dangerously interactive.

Space

If you've ever yearned to roam and rant among the planetary rings, inter-galactic spaceports and lunar craters, now's your chance. Get into orbit and hurl space junk at your favorite 'toon.
